EXPERIENCE

Front-end Developer

Smile Ukraine

📅 05/2021 - 04/2025   📍 Lutsk, Ukraine

Magento developer:
- Customized default Magento 2 functionality to meet client requirements.
- Worked with Magento 2 modules: modified existing ones and developed custom modules.
- Created interactive page elements such as sliders, pop-ups, widgets, and more.
- Rewrote native Magento validation.

Front-end developer:
- Built dynamic, responsive user interfaces using React.
- Worked on a project that included two separate websites under one codebase.
- Refactored legacy components and developed new reusable components for use across both sites.
- Created complex forms with file uploads, calendars, captchas, and other fields, including validation and submission logic.
- Worked with GraphQL queries and mutations for data fetching, updating, and deletion.
- Estimated tasks and participated in project planning.
- Worked on two projects in parallel: the main one in React and a legacy project in jQuery (fixing bugs and extending old functionality).
- Fixed various bugs and rewrote outdated code to ensure a high-quality codebase.

TRAINING / COURSES

Practical React course

by SoftServe Academy

📅 10/2024 - 12/2024

Frontend Project-Based Learning course

by SoftServe Academy

📅 01/2025 - 02/2025

SUMMARY

Experienced and goal-oriented Front-end Developer with 2 years of hands-on experience in web development. Strong understanding and practical experience with React, Next and TypeScript to build dynamic and responsive applications. Additionally, I quickly learn and adapt to new development tools as needed. I always look for new ways to improve my skills. Recently completed the Practical React course and the Frontend Project-Based Learning course by SoftServe. Motivated and open to new challenges.
